

# SLIM

## *Saving time*

With the technical ingenuity of the SLIM dough divider you can count on efficient production processes. You save time because it is no longer necessary to clean in between batches if you change dough types. Daily maintenance is fast and simple with this machine.

## *Compact and mobile*

The compact design of the SLIM fits in even the smallest bakeries. Also you are not tied to one location which is a positive point for your flexibility.

## *Preparing Future Tradition*
